PLANTS for RENTAL

www.princelandscape.com

“As Changi embarks on development plants to meet the demands of growing traffic in the years to come, we endeavor to continue innovating and improving airport operations across all aspects. We look forward to another year of close partnership with you, where together, we will deliver a seamless and memorable experience for all who travel through Changi.

Thank you once again for your continued strong support. We could not have done it without you.”

**- Executive Vice President
Airport Management / Changi Airport Group**

CORPORATE PROFILE

One of the oldest nurseries in Singapore, Prince's has 50 years experience in the industry. Started out humbly as a flower shop, Prince's has evolved into a full-fledge landscape design and installation specialist.

Presently blessed with 2 nurseries and a headcount of more than 400 professionals, horticulturists, designers, engineers, florists and support staff, Prince's success is attributable to this dedicated and qualified team which also undergoes a rigorous training and development program, allowing us to be uniquely customer- and product-oriented at the same time.

At the international front, our global connections ensure that Prince's meets the needs of our customers. Strategic alliances with Europe, Australasia and Asia have been a boon to our service-oriented culture.

With success comes responsibilities. Our company believes firmly in CSR and we are a conscious participant in environmental conservation as well as an active institution for the disabled, reformed and older workforce.

ABOUT FEATURES

FEATURES by Prince's Landscape offers a wide variety of hydroplants which appeals to anyone's choice.

Plants are set up in a self-monitoring system with a water indicator displaying the water level. Watering between intervals vary from 15-60 days. Plants are available for rental which suits any corporate office.

- I** INDOOR
- S** SEMI-SHADED
- O** OUTDOOR

To ensure selection of plants are in order, Prince's have made recommendations on suitable species for indoor, outdoor, and semi-shaded areas.
