OUR CLIENTELES

PRINCE X APSN

"The 3rd year of meaningful collaboration"

Christmas is a season of love, peace, joy, warmth, and laughter.

The main colours for the theme of the Christmas trees are rustic, woody, and warm, with gold and burgundy elements. Our Christmas trees are also decorated with teddy bears which signify affection and the expression of love towards one another. Often, it evokes the feeling of warmth, comfort, compassion, and love when we receive teddy bears as gifts.

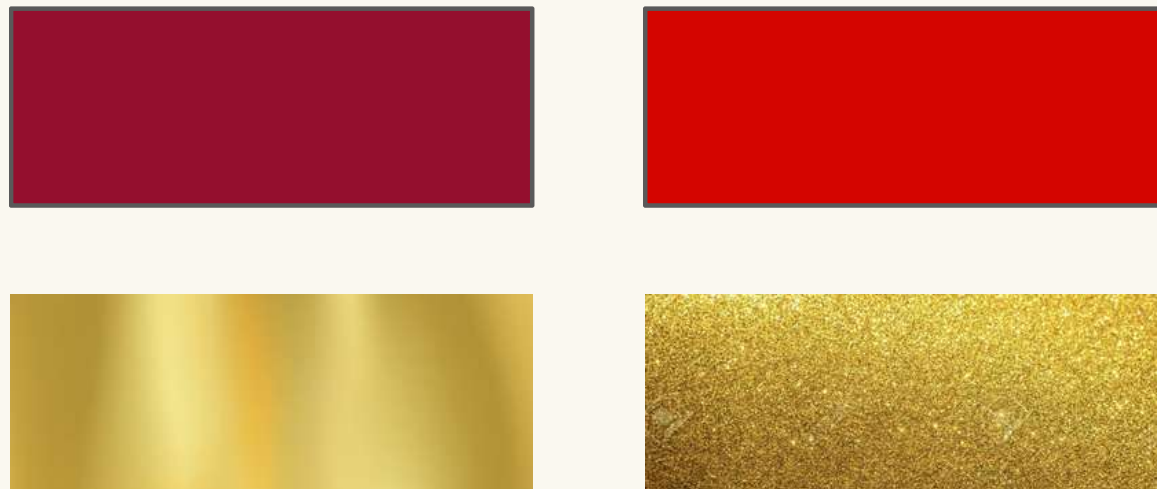

Our hearts are warm as the trainees with special needs from APSN Centre for Adults unleashed their creativity and patiently coloured the ornaments. In addition to this meaningful collaboration, 10% of the sale proceeds will go towards supporting beneficiaries from APSN Centre for Adults in their vocational training programmes and employment support services.

In addition to this meaningful collaboration, 10% of the sale proceeds for this design will go to APSN.

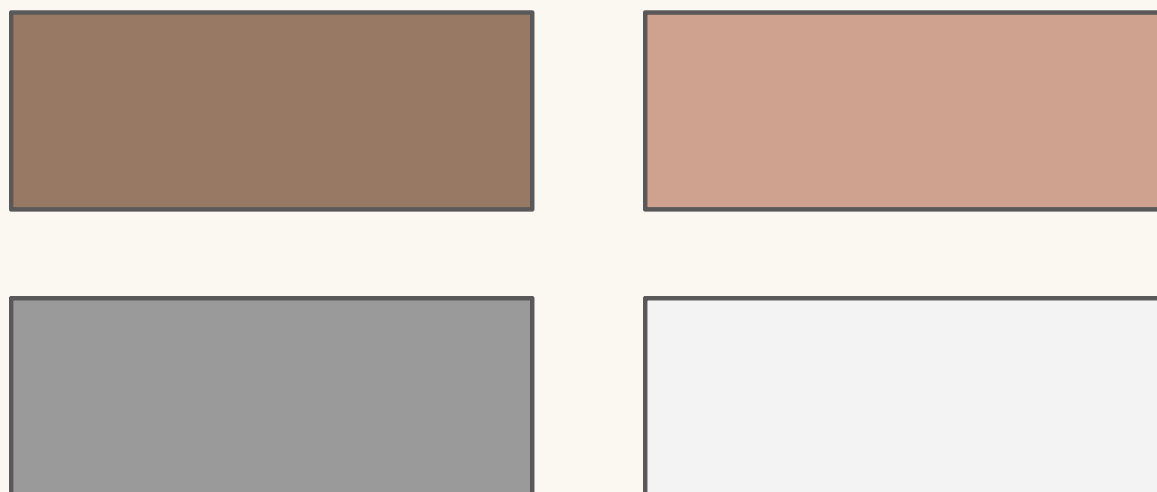

The 2023 collection is inspired by the 12 colours associated with Christmas. This Christmas, Prince will be introducing four themes, each specially designed for clients looking to bring the festive atmosphere into their space.
